

Student sick/exclusion/return algorithm:

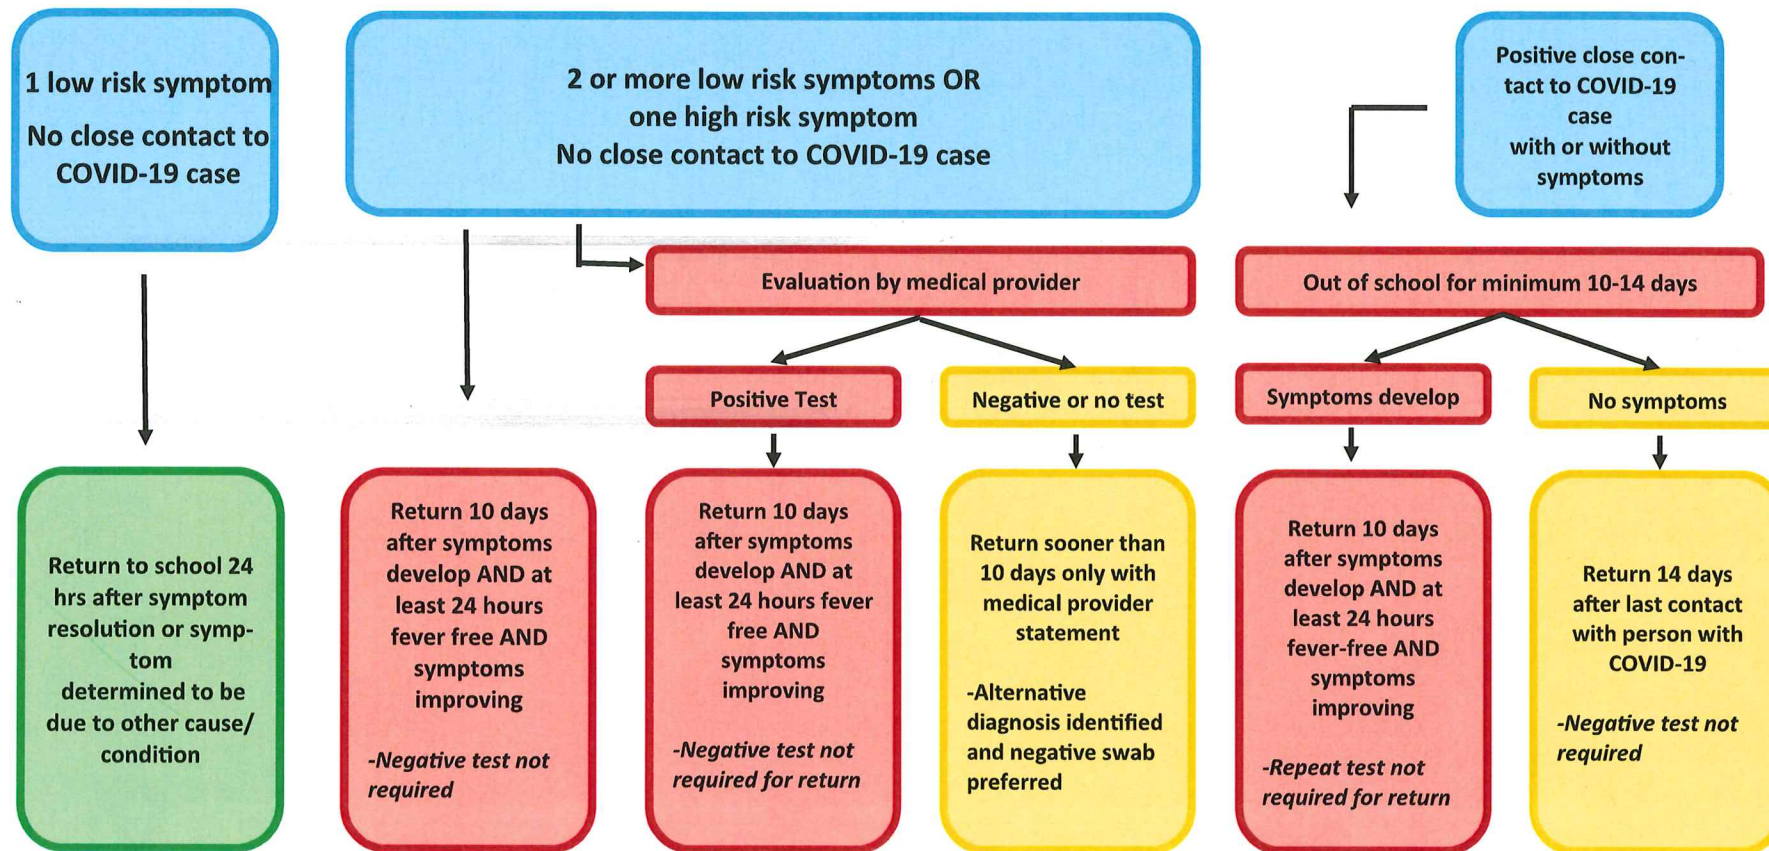

- student develops NEW symptom NOT attributable to another cause/condition or identified as close contact

High-risk symptom:

- fever, or temperature 100° F or higher, cough, shortness of breath, difficulty breathing, unexplained loss of, or decrease in, sense of smell or taste

Low-risk symptom:

- sore throat, muscle aches/pains, fatigue, headache, nasal congestion/runny nose, gastrointestinal symptoms such as nausea/vomiting/abdominal pain/diarrhea

Other possible scenarios:

- Student tests positive for COVID-19, for any reason not falling under algorithm above: exclude from school 10 days with return per the algorithm.
- Nursing/designated staff may consider general complaints on a case-by-case basis (abdominal pain, fatigue, headache with no other symptoms).
- Nursing/designated staff may consider chronic or recurring medical conditions that present with symptoms above on a case-by-case basis.
